## Chapter 1

# About the Unified Client for Ricoh

The Kofax Unified Client for Ricoh adds print and capture capabilities to Ricoh devices through AutoStore, Equitrac, and Output Manager while still using device-specific features.

Specific hardware and software compatibility requirements are outlined in this document. You must meet these requirements to support the Unified Client for Ricoh. These requirements specifically list the needs of the Unified Client for Ricoh and do not include any additional requirements for other components you might use in your system.
